Three Patrons Out For Budget Hearing

For the first time in the tenure of anyone on the Canyon school board a group of patrons Tuesday night showed up for a public hearing on the school budget.

Three people were on hand for the hearing and then sat through most of the ensuing board meeting.

Superintendent Huelyn Laycock went through an item by item explanation of the $901,583 budget and then it was adopted by the board.

Prior to passage of the budget Board Member Jerry LaGrone asked if there were some money set up in the budget to help out on payment for a concert piano purchased last year by the Parent-Teachers Association.

Laycock replied that $750 had been provided for this purpose.

The board apportioned the $1.85 tax rate with $1.28 going to the local maintenance fund and 57 cents to the interest and sinking fund.

Minor amendments to the 1962-63 budget were approved.

A letter to the board from the board of equalization praised tax-assessor collector, Lee Foster.

The letter commended the tax office efficiency and said tax records are in "good shape" with a minimum of complaints being received.

Hazlewood Dairy's bid of 6 cents per half-pint on milk was accepted. Hazlewood was tied for low bid with Goldsmith Dairy.

Bid for bread for the school cafeterias went to American Bakeries. American Bakeries bid 21 cents on 1 1/2 pound loaves of white bread, 20 cents on 1 pound whole wheat, 22 cents on packages of 8 hamburger buns, 22 cents on packages of 8 coney buns and 25 cents for 1 pound of yeast.

Mobil Oil Company was low bidder on gasoline. Regular was bid at 13.29 cents per gallon and premium at 15.94 per gallon.

H. R. King, representing Pioneer Gas Company, told school board members his firm has not increased the price of

Husband Charged In Young Wife's Death

A South Amarillo man was charged the latter part of last week in the fatal shooting of his wife.

Dead is Cheryl Ann Rhoades, 20 years old, 4415 Fannin. Charged with murder without malice is Leon Loren Rhoades, 22, a meter reader for an Amarillo utility firm.

Rhoades told investigating officers his wife was shot accidentally in a scuffle over a gun with which she threatened him after he came home from a round of beer drinking Wednesday night.

Officers said Rhoades, upon advice from an attorney, refused to sign a statement.

He told police he met his wife about 5 o'clock Wednesday afternoon at a motel swimming pool which he is employed to keep clean.

He said his wife left the pool shortly before 7 in her car and he was to have followed her home in his pickup truck. Instead, he said, he stopped off for a few beers, had supper, and did not arrive home until about 11 o'clock.

He said he went into the house and pulled off his shoes after

Stipe Child Comes Home

Cynthia Stipe, 8 year old daughter of Mr. and Mrs. Jim Stipe, is at home following treatment recently at St. Anthony's Hospital in Amarillo.

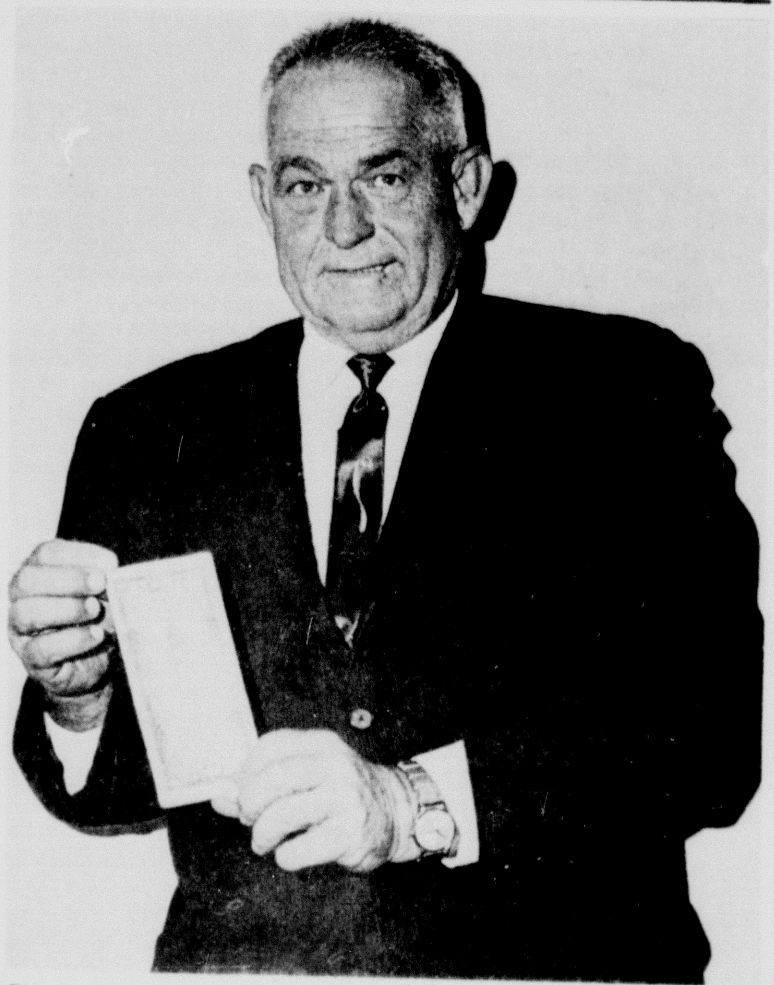
Doctors have confirmed that the malignant tumor located in her right lung last February has spread to her left lung. The entire right lung was removed in February.

She is given shots every two hours by her parents and coughs a lot. "She doesn't sleep very well now", said her mother. Cynthia remains in bed most of the time and is up occasionally in a wheel chair.

The Stipe family has three other daughters.

Changes At West Texas State

Henson Comptroller



Charles Donnell is a happy man this week after a dollar bill which was stolen from him in February found its way back to the theater. The bill is of the 1923 series and has an inscription to the late Mr. W. J. Wooten, Sr., who opened the New Olympic Theater in 1926.

Keepsake Money Is Returned To Owner

Not many people would pay $6 for a dollar bill, but Charles Donnell, manager of the Canyon theaters, did just that last week.

The bill has a long history, and Donnell was determined to get the bill and keep it. . in a safe place.

In 1926 when Mr. W.J. Wooten, Sr., opened the New Olympic Theater in Canyon he was given a dollar bill of the 1923 series with the following inscription: "Greetings and Success. The two opening tickets to the New Olympic by W.J. Wooten. September 29, 1926, 7 p.m. Grady Holland".

The late Wooten kept the bill in his personal belongings, and following his death in 1961, his wife and son Dr. W.J. Wooten, Jr., found the bill.

Knowing Donnell had been with the theater since 1926, the Wooten family decided to give the bill to Donnell.

"I guess they knew I would appreciate having it. It has a lot of sentimental value to me," Donnell explained.

Donnell had the bill laminated in order to preserve it, and placed it in the Varsity Theater office.

"I thought I would keep it with the firm rather than in my personal possession," Donnell stated.

In February of this year, Donnell was ill for several weeks having to be out of his office. When he returned he found that the bill had been stolen.

"I didn't think anyone would take it since it was laminated," he said.

He called the First National Bank and asked them to be on the lookout for the bill, realizing the slim chance of seeing the bill again.

Last week Mr. Clarence Maynard, owner and operator of a coin shop in Amarillo, walked into the theater office to see Donnell.

"I thought he had come to see a portrait of Mr. Wooten, Sr.," Donnell recalled.

But Maynard had come to show Donnell a bill he had found at an old money dealers meeting in Denver. Yes, it was the same bill that had been given to Mr. Wooten in 1926.

"Where did you find it?" Donnell almost screamed when he saw the lost bill.

Maynard explained how he had acquired the 1923 bill, and continued to say that he thought Donnell would be interested in seeing it.

"He didn't realize it had been stolen, and he was very surprised to hear the circumstances surrounding the bill," Donnell said.

"He (Maynard) didn't want me to pay for the bill, but I felt since he had bought it for $6 I should at least pay that for it," Donnell continued.

So the one dollar bill which was lost over six months ago has returned home.

"I didn't think I would ever see it again. I felt kind of guilty for ever losing it," Donnell said.

"Now my only trouble is finding a place to keep it so it won't get stolen again," he concluded.

Band Parents Meeting Set

Parents of band students in the 6th grade through high school at Canyon are urged to attend a business meeting of band parents next Thursday evening, August 29, at the auditorium of Canyon High School.

The business meeting will begin at 7:30 p.m. Officers for the 63-64 term will be elected at the meeting.

A film on the marching contests held last spring will be shown to the group by Lee Boyd Montgomery, band director. The film features the Eagle's Marching Band that won sweepstakes award in the contest.

The Band Parents Organization has previously been for parents of high school band students. This year the organization will include parents of students beginning with the sixth grade.

Buffaloes To Practice At Air Base

West Texas State University head football coach, Joe Kerbel, announced today that his Buffalo squad will hold an unprecedented football practice at the Amarillo Air Force Base.

The Buffs will travel out to the base and hold a regular practice session on Thursday night, September 12, from 7:30 to 9:00 P.M.

Details have been worked out between Kerbel and Major General Dwight O. Monteith, base commander. It is believed that this practice session will be the first of it's kind to be held at any Air Force installation.

All base personel, military and civilian, are invited to view the workout free of charge. Roster sheets will be handed out and Coach Kerbel will introduce many of the Buff players. Kerbel will describe some of the offensive and defensive formations the Buffaloes use and discuss some of the drills which help put the players in shape and make them into an organized unit.

A fifteen minute get acquainted and autograph session for the children will be held following the practice session.

Canyon Gets More Rain

Moisture received this week in Canyon raised this year's total rainfall to 14.38 inches, according to Dr. M. B. Measamer of Canyon.

Rain Saturday came to .11 of an inch, and Sunday night rainfall was .15 of an inch.

This year's total rainfall is almost an inch less than last year's recorded moisture, Dr. Measamer said.

Hooper To Become Business Manager

Virgil Henson has been named comptroller of West Texas State University and Joe Hooper has been elevated to the post of business manager.

These changes in the administrative structure of the instution were authorized at a recent meeting of the board of regents, according to Dr. James P. Cornette, WT president.

The changes become effective September 1, Cornette said.

Henson's title has been that of business manager and Hooper has been serving as his assistant. There will be little immediate physical change at the business office. The office of comptroller and the business offices will be separated physically when a new school administration building is completed in 1966.

Henson came to West Texas State September 1, 1936 as an assistant in the business office. He became business manager September 1, 1939.

This week Henson predicted that there would be more growth at West Texas State during the next 10 years than there has been since he came here 27 years ago.

Most of WT's growth has come during Henson's tenure. It has been his responsibility to fight the institution's battles before the legislature and Henson played a prominent role in achieving university status for West Texas State.

West Texas will open school this fall as a university.

Henson was graduated from East Texas State with a degree in history in 1935. His minor was government. He taught school a year before joining the business office staff at WT.

Henson is a deacon in the First Baptist Church and is a member of the Masonic Lodge.

Mrs. Henson is a native of Commerce. The Hensons have two children, Mrs. Alan Hanks of Las Vegas, NM, and Marion, who is a sophomore at WT.

Hooper is a graduate of Frank Phillips Junior College at Borger. He was graduated from West Texas State in 1954 with a degree in business. He received his masters degree in 1960.

Both Hooper and his wife, Linda, are graduates of Borger High School.

Hooper served two years in the armed forces and then worked a year for a hardware firm before joining the business office staff at WT as assistant to Henson in 1957.

The Hoopers have two children, Kelly, 6 years old, and Leah, 3.

Speed Limit Raised On Most Roads

The speed limit changes a minute after midnight tonight.

Then it will be legal to drive 70 miles an hour over most Randall County highways, according to Don Day, Highway Department design engineer.

Day said the 70 mile an hour limit will prevail on all highways not otherwise posted.

Day and a crew of six men spent six weeks making radar speed checks in Highway District 4 towns and cities. This takes in most of the Panhandle.

He said the checks were made in order to establish speed step downs for speed zones in towns and cities traversed by state highways.

Day said the department makes speed zone recomendations to city councils. He said these recomendations are based on average speeds observed by 85 percent of the motorists.

The engineer said some $70,000 was expended in District 4 alone in preparation for the new speed limit. A lot of the necessary paper work was brought about because all speed zones in the state must be recorded in Austin.

Day declared that it has been necessary to lengthen no passing stripes and to post speed limits on curves which had not previously been posted.

Another big task faces the Highway Department this week end. The new speed limit signs must be up within 48 hours of the time the new speed law becomes effective tonight.

Unique Finance Plan Studied

Drama Needs Angels

Texas Panhandle Heritage Foundation is looking for "angels" to get its symphonic drama into production next year--Randall County's diamond jubilee.

A plan to raise at least $75,000 was unfolded Sunday night at a membership meeting in the Palo Duro Canyon.

The plan was advanced by Don Harrington of Amarillo and calls for setting up a limited partnership between the foundation and people buying shares at $500 each.

Advisers say the share holders may cash in on profits--if any--from the production. If they are not reimbursed, then they may take an income deduction for capital loss on the entire $500.

Jack Little, secretary of the finance committee, discussed several pros and cons of the proposition. Little is associated with an Amarillo banking firm.

Little acted as a reporter for a committee which studied the plan. The committee was headed by Lee Bivins.

Ray Raillard, Canyon, read a financial report stating that the foundation has $26,214.53 with which to work at the present time. Mrs. Ples Harper, foundation president, noted that this leaves about $75,000 to be raised to get the Paul Green historical drama into production.

She pointed out that time is very important if the production is to come off in 1964.

Raillard said total support for the foundation to date comes to $186,283.27.

Lee Bivins spoke briefly on the pros and cons of the limited partnership proposition.

Troy Martin reported that he and Jerry LaGrone had contacted several people in Canyon and that $7,000 tentatively was pledged under the plan.

A letter from Sterling Kenney, Amarillo attorney, stated that in his opinion a limited partnership involving the foundation would not alter the foundation's tax status.

The small group present voted unanimously to accept the Harrington proposal. Mrs. Harper said ballots would be sent by mail to other members of the foundation.

W.A. Moore, WT drama department, told the group that accoustics in the amphitheater are near perfect.

The meeting was called for the amphitheater but was moved to the lodge on the canyon rim after a heavy downpour of rain.

The planned appearance of a group of Indian dancers from Amarillo's Boy Scout Troop 80 was cancelled because of rain.

These supporters of the Panhandle Heritage Foundation came to the Palo Duro amphitheater prepared Sunday night. They are Sheri Davis, left, and Lydia Miller, both of Canyon. A Boy Scout Indian dance at the amphitheater was rained out and it was necessary to hold a foundation membership meeting at the concession lodge on the rim of the canyon.

Cattle Killed On Road As Hard Luck Hounds Hunters

There are worse things than bad luck, but Tommy Hunter would like to know what they are.

Perhaps the crowning blow to Hunter's string of bad luck came last week when a truck and a pickup killed six newly acquired cows.

Hunter bought the six cows Wednesday morning and put them in his pasture south of town to graze. A little after 11 p.m. he received a call from the highway patrol: his new cows were all dead.

Early the next morning the distraught farmer investigated to see how the cattle could have broken through his good fence. He learned that the cows had swum under the fence in a creek running through the Hunter place.

"I guess if I hadn't lost two steers the week before by lightning, I would not feel so badly about it," Hunter commented.

But he had lost two 500 pound steers just the Saturday before. Following a storm Hunter found the cows dead from lightning.

This is not the end to the sad tale of Tommy Hunter and his family.

Bad luck has been following them for almost two years; ever since Hunter caught his foot in an ensilage cutter. This happened in October of 1961, and for almost a year, Hunter was in and out of the hospital with his foot.

The family barely had time to recover from Hunter's accident when their small 3 year old daughter, Trena Lee, was run over by a car. The child was playing under a car at an ice cream supper, and the driver did not see her. She spent the next 30 days in the hospital.

Around nine months ago the bill paying father was cleaning a motor in his milk barn when the fumes ignited. The following blaze caused over $400 worth of damage.

All had been peaceful at the Hunter home until the steers were found dead.

"I'll be glad when this is over. . . if I can stay around that long," Hunter laughed sadly.

Hilltop Views

There is no more common subject of discussion today in this country than "the fix we are in." On the streets, in our various business offices, in our social gatherings, on TV and radio, in newspapers and magazines, at political gatherings of all kinds, in governmental agencies from the President's office on down, and even in pulpits and religious conventions people of all classes are talking about government centralization, the national debt, foreign aid, nuclear ban treaty, the Negro problem, civil rights, the Supreme Court, agriculture, the Kennedy administration, the approaching elections (1964), education, the exploding population, organized labor and the railroads, high taxes, high cost of living, juvenile delinquency, the alarming increase in crime, conservatism, liberalism, socialism, communism, atheism, and so many other "isms" it strains my mental machinery to recall some of them.

In the face of all these vexing problems it is no wonder that the American people as a whole are evincing an almost alarming measure of restlessness, loss of faith in our governmental system, uncontrolled criticism of public policies, and a cynicism that is inconsistent with the essential elements of a free society.

Our history and traditions do not justify such an unhappy state of mind. Freedom is derived from and kept by intellectual, moral and spiritual values---values that are positive and constructive. Today's problems are not the first that this country has faced; and they will not be the last. We have cause to take example and gather hope from the past.

All who feel the need for encouragement in these troublous times should read an article in the August Rotarian by Willy Brandt, Head of the West Berlin government. If anybody in the world today has cause to distrust the present and fear the future it is the people of that besieged city. Yet, out of this former home of despotic goverment comes the confident voice of faith in the ultimate triumph of liberty. Listen: "On the dividing line between East and West one has no time to be timid. Sometimes it is true, one becomes weary and doubts are expressed about the future. Voices are raised, clamoring, 'How long, oh Lord, how long?' But we have made our choice, we have learned our lesson, we accept our responsibility with pride, and we will endure the consequences as long as necessary.

"My experience is this: when people of good will work together for a cause they hold dear, and if they have the strength to live with uncertainty, there is hardly any obstacle that cannot be overcome. The spirit of freedom combined with the urge for normal human relations and contacts is a political reality that statesmen cannot ignore.

"No political program, no policy blue print, can be successful in the long run if this reality is not taken into consideration. This, in a very true sense, is the dynamic power of the human factor. And policy makers who forget that the ultimate justification of policy must be its response to the needs of human beings are living in an unreal world.----

"I want to bring you a message of confidence, confidence in the strength of our ideals. Whoever has been in the Soviet Union recently tells us that since the death of Stalin the people have started to breathe more freely. The average individual there reacts as you and I. He wants a better life based on human values. This development will continue. Possibly it will be only at a snail's pace and certainly not without some reverses. But nobody will be able to stop this trend.

"It is quite clear. Man cannot be made over. His hopes and wants will always continue in the same direction and they have an elemental strength. Nobody, no system, no ideology, can prevail over the future unless the central interest is humanity.

"Communism must transcend itself or it will become obsolete and decay. The world is not to be won by disregarding people. Therefore let us stand firmly on the basic convictions that unite us. If we stand together, if we keep our eyes straight ahead, if we understand the call of the people and follow it, then we shall not only survive, but we shall be victorious. Then we will not only win the peace, but also the future."

If such hope and faith and wisdom and courage can come out of the home of Hitlerian autocracy what may we not hope from the land of the Czars, Stalin and Khrushchev?

FROM THE CANYON RIM

Probably the spot in Canyon most fraught with the possibility of tragedy is Fourth Avenue in front of Randall Hall.

Pedestrian cross walks traverse the avenue against all safety rules taught young students up to the time they enroll in school here. Any motorist that has driven by the dormitory while the street was full of youngsters realizes the nightmarish possibility of a tragic accident.

We hope proper authorities will take immediate precautions. Possibly a restraining fence could be placed along the walk high enough to keep students out of the street except at intersections.

If this cannot be done, then the street should be roped off during the hours of peak foot traffic across it. Something must be done. It is a matter of life or death.

General Thomas S. Powers, chief of the Strategic Air Command, deserves a medal. Instead he probably will be fired.

General Powers this week testified before a Senate committee that the test ban treaty with Russia is not in the best interests of this country.

His superior, Gen. Curtis Le May, Air Force Chief of Staff, told senators that if he had been allowed to speak out before the treaty was signed, he would have advised against it.

Admiral George W. Anderson, Jr., until recently chief of Naval operations, was relieved of his position because of his stand against the test ban treaty.

These men of courage deserve the esteem of their countrymen. They probably will be sacked and our defense establishment run by such sycophants as General Maxwell Taylor, chairman of the joint chiefs of staff, who at first came out against the test ban treaty and then endorsed it under pressure.

We join in congratulating Virgil Henson and Joe Hooper on their promotions which will become effective Sept. 1. Virgil will be comptroller and Joe will become business manager.

Bob Wear has published a book called "Ideas to Live By." The book is filled with philosophy, which if applied, would make life easier and more enjoyable for anyone.

Here are some excerpts:

"There are no bargains among the good things of life, and whatever appears to be such is just cheap merchandise."

"The climate in which we live depends upon the quality of the principles and ideals which control our thinking and general behavior."

***

We heard a civic club speaker a short time ago predict that this country is going to try socialism.

It is being sold as the ultimate in security for the masses. Sugar coated though it is in the sweet shell of something good for everyone, socialism still is a bitter pill.

Of necessity it must concentrate the control of the ability to produce---our only source of wealth---in the hands of politicians instead of in the hands of producers. This in effect, places a nation's bread in the hands of those who seek power.

We cite examples of the present administration's threats to give or withdraw government funds as reward or punishment. This has been done repeatedly and with outward success.

It is a foretaste of what we can expect when politicians control absolutely the very food we eat as they certainly shall under complete socialism.

If an air base can be closed down simply because the President does not like the political attitude of the area in which it is located, then under socialized medicine a community's medical service could be curtailed for a similar reason.

Socialism is sold as compassion for mankind. It really is bait in a trap set for you and me by men who lust for power.

***

The battle against socialistic encroachment is made doubly difficult because most of us are receiving or have received some kind benefits from the system. Those who ordinarily would be expected to cry out against an affront to freedom keep silent because they do not want to lose any gravy. It is as simple as that.

Letter To The Editor

Canyon, Texas
August 16, 1963

Mr. Troy Martin, Editor
The Canyon News
Canyon, Texas
Dear Sir:

I read in the August 15th issue of The Canyon News, the letter critizing your editorials and comments. It is a mark of stature when you present the other side of a controversy. I admire your courage in presenting your position and believe one of the greatest services our American way of life has, is the faith and courage of our news editors to speak out in support of their convictions on controversial subjects.

I believe most people agree that all races should have equal rights. I believe that only the minority think that certain classes and minority groups should have unearned and preferential treatment.

If some feel that they want a higher place in society, they should earn it like the majority do; through high standard of character, self-denial from sensual and sinful pleasures, assuming responsibility for their family and support of their offspring, and performing service to their fellow man which will merit respect and confidence. I am convinced that "God is no respecter of persons, but in every nation he that feareth God and worketh righteousness is accepted of him" Acts 10:35. I also believe Moses married a woman of the black race when he married the Ethiopian woman. Num. 12:1. But I have never seen anything in the law of God nor, in former years, in the law of our land, which says God-fearing people must accept as their equal, entertain in their home, eat with, sleep with people who disrespect the law of God and the laws of the land; who marry, divorce, conhabit without marriage and produce offspring for their betters to feed and support.

Regarding the Poll Tax: When about one-third of the income of our nation is taken by taxes, for services to the public, why should the token payment of a Poll Tax for support of schools and local government be abolished for political reasons. How do men who do not have enough interest in government and support of schools for their children to pay a poll tax deserve a vote? It will mean the fall of our nation, if the basest sort of people gain the balance of power in government.

W. A. KIRK

Dear Troy:

In regard to your invitation for comment on letter of last week written by Mrs. Frederick Kendrick of Toledo, Ohio, one word will suffice and that is a beauty, "Amen."

Also another amen to your editorial entitled "Kennedy Baby." It was well written and its sentiments appreciated by all. A pat on the back to you Troy for it.

Fighters Prevent Disaster

Canyon fire volunteers worked quickly to shut off a broken gas line Friday afternoon preventing a possible fire or explosion after a county tractor and mower hit the gas meter causing gas to flow from the pipe.

The incident, which occurred a quarter of a mile north of town on the Amarillo Expressway (Rockwell Road), drew the Canyon fire department and members of the Transwestern Pipe Line Company of Pampa. The fire workers shut off the valve and worked nearly two hours to restore the pipe. Over 750 pounds of pressure was forcing the gas to flow from the broken pipe.

"One spark would have set the whole thing on fire," Joe Rice, Canyon fire captain, said.

Rockwell Road was blocked off while fighters shut off the pipe and repaired the break. The pipe was back into service in less than two hours.

Proposed CONSTITUTIONAL AMENDMENT

NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 9, 1963.

SENATE JOINT RESOLUTION NO. 16 proposing an amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Three Hundred Fifty Million Dollars ($350,000,000.00); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advise and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Three Hundred Fifty Million Dollars ($350,000,000.00) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars ($200,000,000.00) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of any bonds may not exceed four and one-half percent (4½%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price therefor, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys so attributable shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of such lands, or rights therein; the bonuses, income, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder for the purchase of any such bonds to comply with his bid and accept and pay for such bonds or for the failure of any bidder for the purchase of any lands comprising a part of said Fund to comply with his bid and accept and pay for any such lands; and interest received from investments of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to Texas veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1955, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds hereafter issued and sold by said Board may be used by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds.

"All moneys attributable to the bonds issued and sold pursuant to the Constitutional Amendment adopted on November 6, 1956, shall be credited to said Veterans' Land Fund and may be used for the purpose of purchasing additional lands, to be sold as provided herein, until December 1, 1965; provided, however, that so much of such moneys as may be necessary to pay interest on such bonds shall be set aside for that purpose. After December 1, 1965, all moneys attributable to such bonds shall be set aside for the retirement of such bonds and to pay interest thereon; and when there are sufficient moneys to retire all of such bonds, all of such moneys then remaining or thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds hereafter issued and sold by said Board (a 'series of bonds' being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds hereafter issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Saturday after the first Monday in November, 1963, at which election all ballots shall have printed thereon the following:

"**FOR** the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by $150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law"; and

"**AGAINST** the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by $150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

Childhood Accident May Be Corrected

A roofing nail swallowed by Mrs. John Hardin of Amarillo, daughter of the Bill Griffins, when she was 7 months old has left scar tissue in her throat that will be taken out next month and an artificial esophagus tube inserted in an operation.

A neighborhood boy gave the child the roofing nail to play with when she was 7 months old and she accidentally swallowed it. The nail became lodged in her throat and the baby became ill. She vomited strenuously and the nail became lodged at the root of her tongue.

The baby was rushed to the doctor by her parents, Mr. and Mrs. Bill Griffin. The doctor diagnosed that the child was infected with strep throat. The baby and her twin sister, now Mrs. Johnny Welch of Canyon, both came down with strep throat several days later.

Her twin sister recovered quickly from the bout with strep throat but Mrs. Hardin continued to get worse. She was taken to the hospital and an x-ray showed the nail was lodged at the root of her tongue.

An operation when she was 10 months old removed the roofing nail and scar tissue formed where the nail had been in her throat. The scar tissue and throat region were dilated several times during the ensuing years.

Recently she was taken to St. Anthony's Hospital in Amarillo with her throat completely closed. She was fed glucose through the veins for about a week and was released from the hospital. Mrs. Hardin has been staying with her parents, the Bill Griffins, for about a week now.

Insertion of the artificial esophagus tube will be made in an operation at St. Anthony's Hospital in Amarillo when she is strong enough for the operation.

Mrs. Hardin, 24, and her husband are the parents of a daughter, Delisa, age two.

New Law On Hot Checks

A new Texas hot check law goes into effect Friday of this week.

The new law calls for a mandatory jail sentence upon conviction for even a first offense hot check.

Minimum penalty is a fine of $1 and a day in jail. Maximum for a misdemeanor worthless check is a fine of $1,000 and a 2 year jail sentence.

These penalties apply for checks of less than $50.

The merchant must give notification of at least 10 days and then send a registered letter to the check writer notifying him that the check is not good.

Justice court has no jurisdiction in hot check cases now because of the mandatory jail sentence factor in the law.

Mr. and Mrs. Pat Gerald and son from Sweetwater visited several days last week with Mrs. Ed Gerald.

Hooch Cache? Just Maybe!

Was it a still or just a storing place for someone?

That's what the people at the Buffalo Book Store are wondering this week after they found several old bottles, a bucket, pipes plumbed in from a cold water hydrant, and a burner in the basement of the store.

"We really can't say for sure what it is or was," Mr. E.T. Cummings, store owner, said.

The discovery was made last week when the fire inspector made a routine check of the building. He inspected the basement and suggested that the bottles be taken out.

Jimmy Allison, an employee at the store, drew the job of cleaning the basement, and in the discarded material the interesting objects came to light.

"This material was not found in the regular basement but rather in a section which had been dug out of the ground," Cummings explained.

So, was it a still, or just a handy place to store some old objects?

gas during the past 11 years until announcing a rise of about 10 percent to be effective October 1, 1963.

King pointed out that this applies only to industrial rates and does not affect domestic rates.

Laycock discussed several phases of school operation at length.

He noted that elementary school must hold 6 1/2 hours and junior high and high school 7 hours this year. Grades above elementary level will begin the school day at 8:35 o'clock this year instead of 8:45 and will be dismissed at 3:35 instead of at 3:30.

Laycock said this is being done in order to meet standards of the Southern Association of Colleges and Secondary Schools.

The board accepted resignations of Mrs. Irene Winter, M. C. Winter, Mrs. Mary Osborne and Mackey Wheatley.

Employed to fill vacancies were Bob Paris, Mrs. Betty Ann Eppinette, W. L. Nickell and Mrs. Lena Sue Casto.

Mrs. Eppinette and Paris both graduated from West Texas State last spring and live in Canyon.

Nickell has had 9 years of teaching experience at Woodrow, Colorado, and holds a degree from WT. Mrs. Casto also has a degree from WT and taught 5 years at Lockney and 1 at San Angelo.

having greeted Mrs. Rhoades at the door.

"I'm going to shoot you," he quoted Mrs. Rhoades as having said. He said he didn't believe she would but then heard the click of a pistol being cocked.

He said he got up and was about to put his shoes in a closet. As he approched his wife, she lowered the pistol and he grabbed it, Rhoades related.

He said they scuffled over the gun, both finally falling to the floor in the kitchen with him on top. According to the statement, the lights in the kitchen were not on.

He said the gun went off and his wife went limp. He said he tried with a handful of Kleenex to stop the flow of blood after he had turned the lights on and found that his wife was severely wounded. He was unable to do so and called the telephone operator asking her to call an ambulance and notify officers.

Mrs. Rhoades was rushed to Northwest Texas Hospital in Amarillo and died there about 2:30 o'clock Thursday morning without having regained consciousness.

Officers found a 357 magnum pistol on a dryer at the family home. Apparently one shot had been fired from it.

A bullet had entered Mrs. Rhoades' head above the right eye. Her thumb on the right hand also had been mangled by a bullet.

Amarillo policemen investigating the shooting said Rhoades telephoned an attorney and was advised not to sign a statement. Officers said a lie detector test given Rhoades indicated that his version of the shooting was the truth.

Rhoades was arraigned here Thursday afternoon. He was freed on $5,000 bond set by Justice of the Peace Bill Wilson.

The Rhoades have two small children. Funeral services for Mrs. Rhoades were held Friday of last week in Amarillo.

Visitors In Durden Home

Mr. and Mrs. Rowie Durden entertained his parents, Mr. and Mrs. W.G. Many, with a trip to Red River, New Mexico last week.

They spent several days sightseeing and stayed at the cabin of the Bob Bellahs of Canyon. Enroute home they made a side trip to Taos, New Mexico.

The W.G. Manys have been visiting in Canyon for about a month with the Durdens. They have made tours of Palo Duro Canyon, the Panhandle Plains Museum, Buffalo Lake and other interesting points in the area.

The W.G. Many family left Monday of this week enroute to their home in Mount Vernon, New York.

Visiting with Mr. and Mrs. Joe W. Green this week is their granddaughter, Judy Simpson, of Amarillo.

Richardson Re-Elected Club Prexy

Roscoe Richardson was re-elected president of the Canyon High School Eagle's Booster Club Thursday night at the season's kick-off meeting.

Other officers picked for the 1963-64 season were Arnold Prichard, vice preisent, and Mrs. Cecil O'Donald, secretary and treasurer.

Coach E.J. Webb began the meeting by introducing new members on the coaching staff. They included Ned Jolley as varsity assistant, Gary Steinberger, 8th grade football coach, and Stanley Lair, 7th grade coach. Allen Simpson and Mack Winter will return as coaches for the Eagle teams.

Club members voted to buy dress jackets for each member of the football team. The jackets will be used by the football and basketball teams and will remain at the school each year.

Other action taken by the club was the decision to keep membership dues at $1 a year.

The next meeting of the club will be at 8 p.m. Monday, August 26, in the high school cafeteria.

Patrol Sets Recruiting Meet Here

A recruiting meeting will be held by the Texas Highway patrol Monday night of next week in the Randall County Sheriff's office.

Conducting the meeting will be Patrolman Bobby Rivers, local highway patrolman.

The meeting will begin at 7 o'clock and continue until 9 o'clock. Jobs are open for young men between the ages of 21 and 35 who can meet required standards.

Rivers said there are six basic requirements. A candidate must be between the ages of 21 and 35, a citizen of Texas for at least a year, at least 5 feet, 8 inches tall, not less than 2 pounds nor more than 3 pounds weight for each inch of height, 20-30 vision without glasses and must be a high school graduate.

Upon completion of a 16-week training course, successful candidates will be assigned whenever possible within 100 miles of their home town at a basic salary of $453 per month.

Eagle Band Looks 'Good'

Prospects for the Eagle Band are high this year, Lee Boyd Montgomery, band director, predicted this week.

"We should have a band twice as good as last year's band," Montgomery said.

An average of 60 to 65 students have turned out daily at the summer practice sessions held the past two weeks. The first performance of the band will be the half-time ceremonies at the Canyon-Dimmitt football game Sept. 6.

Between 90 and 100 high school students are expected to enroll in the band this fall, Montgomery said.

HD Council Supports Randall County Clubs

The Randall County Home Demonstration Council serves as an advisory committee for the eleven clubs located in Randall County.

Mrs. Lewis Tucek is council chairman. Other council officers are Mrs. D. L. Allison, vice chairman, and Mrs. Earl Reynolds, secretary-treasurer. Mrs. Roy Henderson is chairman for the Texas Home Demonstration Association in Randall County.

Members of the council are the council delegates and presidents of each club in Randall County.

The council also includes members who are on the standing committees, yearbook committee, finance committee, 4-H committee, recreation committee, health and safety committee, family life committee and the civil defense committee.

Clubs in Randall County have about 140 active members. The clubs are Palo Duro Rusk, Pleasantview, Sunnyhill, West Side, Happy, Edgetown, Green Haven, Grand View, Highland, Canyon and Jowell.

The council sponsors a number of county-wide projects each year. Noted public speakers often provide the programs on food, clothing and other topics of interest to homemakers.

Money for 4-H awards and ribbons is contributed by the home demonstration council from the "hot dog" stand that is operated annually at the city carnival.

Last year a life resuscitator was presented to the Fire Department of the City of Canyon. Club and council members contributed to the fund.

Sunnyhill Near Happy

Sunnyhill Home Demonstration Club is located near Happy with members from the farming community in Randall County.

Mrs. O. O. Henry is president of the club. Other officers include Mrs. Hobart McManigal, vice president; Mrs. E. W. Miller, secretary-treasurer; Mrs. D. L. Allison, council delegate; and Mrs. T. L. Henry, reporter.

The club has eleven members.

Buffalo Grass Suitable For Rural Homes

Buffalo is a low growing perennial plant native to much of Texas. Buffalo grass is one of the few species of grass having separate male and female plants. It is cold, drouth, and heat tolerant. It is not a nuisance in flower beds and gardens.

It will not grow in shade. It has a dry, unattractive appearance during periods of prolonged drouth, and is late fall, winter, and early spring. It is not aggressive and may be invaded by weeds.

Buffalo is suited to broad areas especially around rural homes. It requires little or no mowing and very little irrigation.

It is started by seed, sprigs, and sod. Spring and fall is the best seasons for establishment.

Contents Explained On Fertilizer Bags

Contents of a fertilizer bag need not be a mystery. Laws governing the manufacture and sale of fertilizers require that the percentage of the three major elements, nitrogen, phosphorous, and potash must be given in readable print on the bag.

Look closely at the next bag of fertilizer you buy. If it is a complete fertilizer, that is containing all three major elements, the three percentages will always be given in a definite order.

The first number given the percent nitrogen, the second is phosphorous expressed as P205, and the third is potash expressed as K20. Thus a fertilizer such as 5-10-5 will contain 5% nitrogen, 10% phosphorous, and 5% potash. One with a 16-20-0 label will have 16% nitrogen, 20% phosphorous, and no potash. This is a common grade sold for lawns, gardens, and field crops in this area of Texas.

Fertilizer materials are quite often used in the Texas Panhandle. They usually contain only one major element of a high analysis. This is always printed on the bag.

A rule of thumb to use is that the higher the analysis, the lower the cost. Storage, handling, and transportation charges make up part of the cost of fertilizers.

Grand View Club Is In Amarillo

Grand View Home Demonstration Club is located in South Amarillo near Caprock High School and has a membership of nine homemakers.

Mrs. George Bell is president of the club. Other officers are Mrs. David Teasley, vice president; Mrs. Cyrus Gillings, secretary-treasurer; Mrs. Ronald Holeman, reporter; and Mrs. David Teasley, council delegate.

SWEET SOUR PORK

With a sharp knife, cut 2 pounds lean uncooked pork into pieces about 3/4 inch thick and 2 inches long. Add 1 cup water and 6 whole cloves, bring to a boil. Reduce heat and cook 25 minutes or until tender. Pour off water, if there is any left. Cool.

Combine meat with sauteed vegetables and hot sweet-sour sauce. Serve piping hot with rice as a side dish. Makes 4 to 6 servings.

CHICKEN SPAGHETTI

1 5-pound hen cooked
2 12-ounce packages spaghetti

1 green pepper
1 stalk celery
3 Tbsp. sugar
1 small hot pepper
salt
1 bay leaf
2 (4-ounce) cans of mushrooms, (optional)

Cook chicken in salted water. Remove chicken from bones and cut into large pieces. Let stock cool and skim off fat. Add all ingredients except spaghetti to stock and cook until well done. Cool, package in family sized containers.

To Serve: While chicken sauce thaws, cook spaghetti in a large quantity of salt water until partially done. Combine spaghetti, chicken, sauce and 2 small cans of sliced mushroom. Season with salt. Cook over low heat 30 minutes or longer.

MUSHROOM AND ROAST

Place 2 lb. roast in baking dish and spread 1 can of condensed mushroom soup over the top side. Allow to bake in 300 degree oven about 2 hours.

The mushroom sauce will make a gravy. Occasionally the sauce will need to be thickened with a water and flour solution for gravies.

MASTER MIX

The siftings and measurings of the dry ingredients and the blending of the fat can be done at one time for a dozen bakings. The Mix will keep at least six weeks without refrigerations.

MASTER MIX

For 13 cups

9 cups sifted allpurpose flour or 10 cups sifted soft wheat or cake flour

1/3 cup double acting baking powder

1 tablespoon salt

2 teaspoons cream of tartar

1/4 cup of sugar

2 cups shortening which does not require refrigeration

For 29 cups

5 pounds of flour

3/4 cup double acting baking powder

3 tablespoon salt

2 tablespoons cream of tartar

1/2 cup of sugar

2 pounds shortening which does not require refrigeration

Stir baking powder, salt, cream of tartar and sugar into flour. Sift together three times into a large bowl or into a large square of plain paper, cut in shortening until mix is consistency of corn meal. Store in covered containers at room temperature. To measure the Master Mix, pile it lightly into cup and level off with a spatula.

USING LARD IN THE MASTER MIX

If lard is used as the shortening in the Master Mix recipe, a smaller amount of shortening should be used. This may be 1 - 2/3 cups lard instead of 2 cups of other shortening; or 1-5/6 pounds of 2 pounds. (1/6 pound lard equal 1/3 cup).

If lard, which requires refrigeration, is used in the Master Mix recipe, the Mix should be refrigerated.

A change in the method of mixing cakes is suggested if lard is used in the Master Mix recipe. Separate the yolks and whites of the eggs. Reserve about one fourth of the sugar and beat it into the beaten egg whites to form a stiff meringue. Follow the other directions for cake making. Stir in the meringue until well blended as the last stop in the mixing process.

Outline Offers Steps For Home Landscaping

A well-planned landscape is one that is livable, interesting, beautiful, easy to maintain and where relationships between outdoor and indoor areas are coordinated properly.

There are three major areas to be considered on most homesites. These are approach or entrance area, outdoor living area, and the work area.

The following outline suggests a possible order for the construction and planting. This can be adapted to suit the individual situation.

1. Drives and walks should be constructed first.

2. Patios, terraces and other paving are a second step.

3. Lawn and ground cover areas should be planted soon.

4. Trees are important. Plant early in program.

5. Hedges, screens, walls and fences provide privacy and assist in temperature control.

6. Other plants and plantings that complete the development may be left until last.

7. Other features such as seats, trellises, arbors, pools and sand boxes may be added one at a time until completion.

Here are some questions to be answered. Consider each one in your planning.

Is a play area for children desired? Is the family horticulturally minded? Will outside maintenance help be available? Do you prefer easy maintenance and a minimum of planted areas?

Is a vegetable garden desired? Will you use area for outdoor living room or for viewing from home? Will garden be used for picnics, barbecues, group entertainment? How much money is available for construction? Do members of family have interest in particular plant? (Roses, iris, day lilies, etc).

Get the family requirements down on paper. Keep in mind you are planning not only for the present but for the years to come.

Fill cake pans about two-thirds full and spread batter into the sides and corners, leaving a slight hollow in the center. This will help to prevent the lopsided cake. Oven temperatures often cause cakes to rise unevenly.

Canyon Woman Directs Panhandle HD District

Mrs. R. A. Hodges of Canyon is director of District I Texas Home Demonstration Association which includes 19 counties in the Panhandle.

District I includes the counties of Armstrong, Carson, Castro, Collingsworth, Dallam, Deaf Smith, Gray, Hansford, Hartley, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Sherman and Wheeler.

There are 12 directors throughout Texas. Directors furnish information to the Texas Home Demonstration Association from the counties in her District, T.H.D.A. chairmen from each county furnish information on clubs in the county and their activities to the district director.

District director is in charge of a training meeting held in January and a district meeting that is usually held during the spring. She is a member of the board of the Texas Home Demonstration Association that includes 24 members.

Programs of work come from the board. The programs are submitted by the local committee chairmen and recommendations and approval is made by the board. There are six committee chairmen including citizenship, civil defense, family life, health and safety, 4-H, and recreation.

A scholarship for outstanding work in 4-H is awarded to three girls each year. The scholarships are valued at $500 and may be used for college training.

Shade Tree Rules Listed

A shade tree doesn't just happen. Nurserymen speak of shade trees that have long life (from 40 up to 100 years), are relatively slow growing, and reach great heights, often above 30 feet.

Some examples of shade trees in this class are: cottonwood, sweetgum, walnut, green ash, and fruitless mulberry, hackberry and Austrian Pine.

Never crowd a shade tree. Give it plenty of room to develop its potential. The place for a shade tree is not in a small corner of the yard or next to a building or street or sidewalk.

It is true that good shade trees often require many years to develop. It is also true that slower growing trees are longer life trees. Why not include one good shade tree of the desired type and enjoy its beauty for a lifetime.

African Bermuda Listed As Warm Season Grass

African Bermuda is lighter green, has finer leaves and stems and has slower growth than Common Bermuda. It requires more water and fertilizer, is more susceptible to brown patch and is not as wear resistant as Common. The leaves usually are grouped near the ends of the stems. Close clipping removes most of the leaves and exposes the brown stems.

African is a warm season grass. It must be started by sod since very few viable seed are produced. It will tolerate shade

Planning Home Grounds Is Challenge To Owner

Home grounds that are developed tastefully not only add comfort and convenience to daily living but increase the dollar value of the property.

Planning and developing home grounds involve three basic fields of endeavor: art, engineering and horticulture.

Four possible approaches to the proper, effective and economical development of the home grounds are:

1. Professional services of a landscape architect. If total costs exceed the amount budgeted, a home owner may pay for preparation of landscape plans, advice, and counsel, and do the actual work himself.

2. Many nurseries and garden centers have competent landscape departments that can be of real service.

3. Assistance from a growing group of semi-professional landscape designers who, through study and experience, are becoming competent in home grounds development.

4. The remaining possibility is for you to plan and develop your own property. Refer to gardening publications and extension service guides.

The key to success is planning. Few sites can be planned, constructed and planted in one year without considerable expenditures.

In most cases, you may need to extend the work over several years, not only because of the time but also because of the expense.

Panhandle Boosts Deep, Fertile Soil

Soils of the central Panhandle are mostly fertile and deep. They are well supplied with calcium, often to an excess. Potassium, or potash, one of the three major fertilizer ingredients is found in very high amounts and there is no need to use additional potassium.

Phosphorous rates low to medium. A few plants such as legumes and often the cool season grasses may need an annual application of phosphorous or a fertilizer containing phosphorous.

Nitrogen is the element most often found short. This is the element grass plants need in abundance for good color and fast growth.

Often soil amendments such as iron and sulphur are used in planting beds to combat the excess calcium present. Sand is often added to improve tilth of the heavy clays.

When ample amounts of organic matter and moisture are combined with the Panhandle soils they become highly productive and no minor elements are needed.

Free Books Available

Bulletins and booklets of information are available at the offices of Miss Sally Fields, home demonstration agent, and John Brazil, county agricultural agent.

The informative booklets include landscaping, canning, food, clothing, garden insects, cattle, swine and crops. They are available to anyone seeking information on a subject and there is no charge.

Nutrition and extension specialists in each field at Texas A & M College publish the booklets of information. The Co-Operative Extension Work Division in Agriculture and Home Economics is a branch of Texas A and M College.

Trees Serve Many Purposes

Some kinds of trees have more than one purpose. Smart landscape artists include dual purpose trees in most well-planned landscapes.

A tree may be desirable for shade, or for fruit, foliage, or flowers. Trees such as Apricot, Apple, Purple Plum, Mimosa, and Crab Apple fall into this class.

Fruit from fruit bearing trees is very nice, but all too often this is not the primary reason for planting. Most of the above mentioned trees will have flowers to add to the landscape beauty. The purple plum is valued for its deep purple foliage. Shade made by the apple and apricot trees is enjoyed.

Dual purpose trees are mostly short to medium life trees. Plan on replacing some of them every few years.

Place on baking sheet. Heat in slow oven (300 degrees) 15 min., or on edge of grill. Makes 4 servings.

Turf Grasses Hard To Grow

Very few of the 550 species of grass in Texas are suitable for turf. Turf grasses are not permitted to mature normally and produce seed. Food materials esential for growth and development of roots and stems are manufactured in the leaves, however, throughout the growing season leaves are clipped one to two times per week. Only a few grasses are able to stand such treatment and still produce a desirable turf.

Choice of a turf grass depends on the geographic location, the amount of water available for irrigation, the degree of shade present, the time and money available, and the kind of usage expected. Turf grasses are classified as warm-season (late spring, summer and early fall) and cool-season (growing in late fall, winter and early spring).

There is no one grass that will give a beautiful green lawn during all the four seasons.

Lawn experts usually agree that mixtures should not be used unless in special cases.

Newly Organized Happy HD Club

Mrs. Art Miller is president of the Happy Home Demonstration Club that has been newly organized.

The club was formed about 5 months ago and has a membership of nine.

To preserve left over egg yolks for future use, place them into a small bowl and add two tablespoons of salad oil. Then store in refrigerator.

Egg yolks will remain soft and fresh for several days. Egg yolks kept this way can be used many ways.

Chlorosis Deadly To Local Plants

Chlorosis is a condition in plants which causes more concern to home owners in Randall County than any one other single plant symptom.

It is a condition which results when chlorophyll, (the green coloring matter in plants) fails to develop or is destroyed. The leaves of chlorotic plants range from light green to yellow to almost white. Iron is necessary for the formation of chlorophyll.

Iron is present in ample supply in soils here but because of the excess calcium and the resulting alkaline reaction, it is not available in sufficient quantities.

Chlorosis is prevalent on grasses, fruit trees, many vegetables, shrubs, flowers, and ornamentals.

An application of large amounts of well-rotted organic material on a regular basis will correct the basic cause of chlorosis by making the soil less alkaline, resulting in iron being more available.

To control chlorosis by addition of iron, use iron sulphate (Copperas) or iron chelates. Methods and amounts of application should be carefully worked out according to manufacturer's directions or from Extension Publications available in any County Agents Office.

Common Bermuda Practical For Canyon Residents Use

Common Bermuda is the most practical, widely used and recommended warm-season grass for Texas lawns. It is a narrow-leaved, vigorous perennial, with both above-ground and below-ground creeping stems. Bermuda is resistant to most turf deseases. When properly managed, weeds are not a problem in Bermuda turf. It makes a dense turf when mowed as needed to a height of 1 to 1 1/2 inches. Bermuda must be fertilized to produce good turf.

During extended drouth, water is needed to keep the grass green. In the drier areas, water is needed for existance.

Bermuda as a turfgrass: (1) does not grow in shade; (2) turns brown after frost in fall and, with continued low temperatures does not green until after last spring freeze; and (3) is a nuisance in flower beds and gardens.

Bermuda tolerates low temperatures. In the Canyon area a good irrigation in mid-winter will insure a strong grass the next spring.

Common Bermuda can be started from seed or sod. One pound of good seed per 1000 square feet should be used. Late May and September is a good time to start a Bermuda lawn.

Bluegrasses Thrive In Cool Seasons

Bluegrasses, Kentucky and Merion, are cool-season grasses widely used in the Texas Panhandle. They thrive best under shady conditions and on fertile soils.

Merion has shorter, wider leaves and can tolerate closer mowing. Merion carries some resistance to leaf spot, the killer of many Kentucky bluegrass lawns, but is highly susceptible to leaf rust.

The management of bluegrass lawns is of the highest type. Much attention must be given to irrigation, mowing, fertilizing, and disease and insect control.

Bluegrass lawns are started by seed. Use two to three pounds of good seed per 1000 square feet. May and September are desirable seeding months.

Cool both puddings to room temperature and add 1 stick of butter to the vanilla pudding, and 1 1/2 to 2 sticks of butter to the chocolate pudding. Use unsalted sweet butter that has been kept at room temperature. Be careful mixing the pudding fillings and be sure too that it doesn't lump.

Spread the vanilla butter cream on the bottom layer with a spread of apricot preserves on top of it and stack layers alternating with the mocca cream filling. Use the remainder of vanilla cream to top the finished cake and decorate to your desire.

LEMON CHESS PIE

Mrs. Ray Metcalf

2 cups sugar
4 eggs
1 Tbsp. corn meal
1 Tbsp. flour
1/4 cup sweet milk
1/4 cup melted butter
Juice of lemon, about 1/2 cup

Mix ingredients together and bake at 350 degrees for about 40 minutes in unbaked pie shell. Do not add sugar and eggs together without constant stirring as sugar will partially cook the egg yolk.

Quick Dill Pickles

A quick way of making dill pickles has been developed by the U. S. Department of Agriculture food specialists recently. This fresh-pack method changes cucumbers into crisp, tangy pickles without requiring the usual 3-6 week fermentation period. Flavor of the pickles is excellent though slightly different from the fermented variety.

Here's a recipe for 7 quarts of dill pickles, packed 7 or 10 to a jar.

FRESH PACK DILL PICKLES

17-18 pounds of cucumbers 3-5 inches long
About 2 gallons of 5 percent brine (3/4 cup granulated salt per gallon of water)
6 cups vinegar
3/4 cup salt, pure granulated
1/4 cup sugar
9 cups water
2 Tbsp. whole mixed pickling spice
Whole mustard seed, 2 teaspoons per quart jar

Garlic pods and dill seeds may be substituted for the mustard seed.

Wash cucumbers thoroughly with vegetable brush. Drain. Cover with 5 percent brine. Let set overnight. Drain.

Combine vinegar, salt, sugar, water, and mixed pickling spices, tied in a clean, thin, white cloth, heat to boiling. Pack cucumbers into clean, hot, quart jars. Add mustard seed, dill heads or garlic to each jar; cover with boiling brine to within about 1/2 inch of top of jar. Adjust jar lids.

Process in boiling water for 20 minutes. (This is for altitudes less than 1,000 feet above sea level. To adjust, add 1 minute per 1,000 feet above this altitude). Count processing time as soon as hot jars are placed into the actively boiling water.

Remove jars and complete seals if necessary. Set jars upright, several inches apart on wire rack to cool.

CANDY CANE COOKIES

Mix: 1 cup shortening (half butter), 1 cup sifted confectioner's sugar, 1 egg, 1 1/2 tsp. almond extract, and 1 tsp. vanilla.

Sift: 2 1/2 cups flour, 1 tsp. salt. Divide dough into halves; add 1/2 tsp. red food coloring to one half of dough.

Roll about 1 tsp. of each color of dough into a strip about 4 inches long; place strips side by side; press lightly together and twist like a rope. Place on ungreased cookie sheet; curve top edge down to form handle of cane. Bake 9 minutes in 375 degree oven. Remove with spatula while warm and sprinkle with a mixture of 1/2 cup crushed peppermint candy and 1/2 cup sugar. Makes about 4 dozen.

****

Cut paper drinking straws into short lengths and insert through slits in pie crusts to prevent juice from running over in the oven. This will also allow steam to escape from the pie.

BURNT SUGAR CAKE

Mrs. H. C. Adcock

Grease two 9 inch layer pans.

Caramelize 1 cup sugar in a heavy skillet or large pan.

Add one cup boiling water slowly and stir over low heat until lumps are dissolved.

Use 1/4 cup of this syrup and 3/4 cup water mixed for the liquid. Sift together 2 1/4 cups all purpose flour, 1 cup sugar, 3 tsp. baking powder, 1 tsp. salt.

Add 1/2 cup soft shortening and the caramel mixture. Beat 2 minutes. Add 2 eggs and beat 2 minutes. Pour into prepared pans and bake at 350 degrees for 25 to 30 minutes until cake is done.

BURNT SUGAR ICING

Leave remaining Caramel syrup in large pan until it is cold, to prevent it from curdling. Add 4 cups sugar and one cup milk. Let boil until soft ball stage. Bear in large mixer bowl until ready to spread.

Add 12 ounce package of whole pecan halves. Spread on top and between layers. Let icing run down sides of cake.

CORN RELISH

Mrs. H. C. Adcock
12 ears corn
1 bunch celery
1 head cabbage
3 green peppers
1 red pepper
1 Tbsp. tumeric
2 tsp. mustard
4 tsp. flour
4 tsp. salt
1 tsp. celery seed
2 cups sugar
5 to 6 cups weak vinegar

Cut corn off of cob. Grind other vegetables. Mix together and add seasoning and vinegar. Add flour that has been moistened with a little vinegar. Bring to boil slowly and simmer for 30 minutes. Pack in pint jars while hot and seal.

WHITE FROSTING SNOW

Add 1/4 tsp. cream of tartar to 1/2 cup egg whites (whites of 4 medium eggs). Beat until frothy, gradually add 5 cups sifted confectioners' sugar, beating vigorously with electric mixer or rotary beater until frosting is fluffy and thick.

MEXICAN PRALINES

2 1/2 cups sugar
3/4 cup milk
1 cup pecans
1 tsp. vanilla
1 Tbsp. butter

Measure 2 cups sugar and place in saucepan with milk; mix well and bring to boil. Caramelize 1/2 cup sugar and add to above boiling mixture. Stir until lumps disappear.

Add nuts and cook to soft ball stage. Remove from heat, add butter and vanilla; beat until it begins to firm. Drop by spoonfuls onto wax paper.

DATE LOAF

3 cups sugar
1 cup milk
1/4 cup white corn syrup
1/2 pound pitted dates
1 cup chopped nuts

Cook sugar, milk, corn syrup and dates to soft ball stage (235 to 240 degrees). Stir as needed to prevent burning. Remove from fire and cool to 104 degrees, just above lukewarm.

Beat until it begins to harden. Add nuts and turn on to a damp cloth. Shape into a roll about 2 inches in diameter. Let stand until firm. Cut into slices as needed. This candy will keep some time if tightly covered. Yield 25 to 30 slices 1/4 inch thick.

SPICED NUTS

2 cups sugar
4 tsp. cinnamon
1 tsp. cloves
1/2 tsp. salt
1 tsp. nutmeg
1/2 cup water
4 cups mixed nuts

Mix all ingredients except nuts in saucepan. Stir continuously until it boils. Set temperature control at 250 degrees and begin testing after the heat light goes off the first time. When the sugar reaches the soft ball stage, turn temperature control to OFF, and add nuts. Stir with wooden spoon until sugary. Spread on pan and allow to cool.

REMARKABLE FUDGE

4 cups sugar
1 can of evaporated milk, large
1 cup butter or margarine
1 12 ounce package of semi-sweet chocolate pieces
1 pint marshmallow creme
1 tsp. vanilla
1 cup walnuts or pecans

Butter sides of heavy 3-quart saucepan; in it combine sugar, milk and butter. Cook over medium heat to soft ball stage stirring often. Remove from heat, add chocolate, marshmallow creme, vanilla and nuts. Beat until chocolate is melted and blended.

Pour into buttered 9x9x2 inch pan. Cut when firm. Makes about 3 dozen 1 1/2 inch pieces.
